

RUSH KENYA PROGRESS REPORT

FOR SPRINGFIELD CHURCH

BY ANDREW AMUKOWA

19/06/2025

UPDATES

- The high school section continues to thrive with both teachers and students putting in more effort year by year. In fact, the K.C.S.E results that we got this year have been the best ones yet putting us on the 9th position in the entire western region.
- The Kenyan government changed the education curriculum from 8-4-4 system to CBC system. This means that we now have a new section in school called the Junior secondary school. This comprises of grade 7,8 and 9 students.
- The school Principal in charge of the primary section, Mr. Japheth Kuranya, officially retired in May this year. He has been the principal for 13 years and has been greatly instrumental in the success that the school has had over the years.
- Enock Amukowa, who is the current operations manager of the school, got voted in as the chairperson of the 2nd generation directors of private schools in western region.

NEEDS

- Repairs of the school infrastructure. The classroom doors are falling off and other classrooms have no doors; the classroom floors are really damaged; desks and chairs are broken and need repairs etc.
- New toilets for the staff to be constructed. The ones they are using now are in poor condition.
- The junior secondary school needs a laboratory to be constructed to facilitate their learning.
- The school has no library; the construction of a library would be of great value to academic performance.
- Purchase and installation of security lights both in the primary and secondary section for the safety of the students and staff who board in school.
- Construction of a new school kitchen and purchasing kitchen equipment.

PRAYER REQUESTS

- The school to get paying parents so that the day-to-day needs of the school can be met because and ensure that the school is self sustainable at the moment it is a struggle.

- Wisdom in choosing the type of school Rush high school will be since the education system for high school section is changing next year.
- Financial provision to upgrade the high school section so it could be able to meet government requirements for the new education system next year.
- Members of the Rush school community (staff, students, parents) will be people after God's own heart because without God, all that we do in vanity.
- Andrew's health to keep getting better and for the treatment plan he is on to work.

THANKSGIVING

The Rush community really appreciates Springfield church greatly for all the love and support given to us over the years. Lives have been transformed which would not have been possible without your prayers and generosity. May God bless you abundantly!
